

Sarah Mendes

Full Stack Java Developer

sarah.mendes@email.com | (555) 431-9027 | Chicago, IL | linkedin.com/in/sarahmendes-dev | github.com/smendes

SUMMARY

Full Stack Java Developer with 6 years of experience delivering scalable web applications across banking and healthcare domains. Proficient in Spring Boot, microservices, and modern JavaScript frameworks, with a strong focus on clean architecture, test-driven development, and cloud deployment.

CORE SKILLS

Backend	Java 17, Spring Boot, Spring Cloud, Hibernate/JPA, REST & GraphQL APIs
Frontend	React, TypeScript, Redux, HTML5/CSS3, Angular (v12+)
Databases	PostgreSQL, MySQL, MongoDB, Redis
Cloud & DevOps	AWS (EC2, S3, RDS, Lambda), Docker, Kubernetes, Jenkins, GitHub Actions
Architecture	Microservices, Event-Driven Design (Kafka), CQRS
Testing	JUnit 5, Mockito, Selenium, Cypress, TDD/BDD

PROFESSIONAL EXPERIENCE

Senior Full Stack Java Developer — Lakeshore Digital Banking

Sep 2021 – Present | Chicago, IL

- Lead full-stack development of a customer-facing digital banking portal using Spring Boot and React, serving 500,000+ active users.
- Re-architected a monolithic loan-processing application into Spring Boot microservices communicating via Kafka, improving deployment frequency from monthly to weekly.
- Built responsive React/TypeScript front-end components with Redux state management, improving page load times by 32%.
- Implemented OAuth2/JWT-based authentication and authorization across services, strengthening platform security posture.
- Drove adoption of TDD practices, increasing backend test coverage from 55% to 88% within one year.

Full Stack Java Developer — MedTrack Solutions

Jun 2019 – Aug 2021 | Chicago, IL

- Developed and maintained a patient records management system using Spring Boot, Hibernate, and Angular.
- Designed RESTful APIs consumed by web and mobile clients, supporting 10,000+ daily active healthcare provider users.
- Optimized PostgreSQL queries and added caching with Redis, reducing average API response time by 40%.
- Containerized applications with Docker and deployed via Jenkins CI/CD pipelines to AWS ECS.

Java Developer — Prairie Software Group

Jul 2017 – May 2019 | Naperville, IL

- Built backend services in Java/Spring for internal logistics and inventory management systems.
- Wrote unit and integration tests using JUnit and Mockito, improving release stability and reducing production defects by 25%.
- Collaborated with UX designers to implement front-end features in Angular for an internal operations dashboard.

EDUCATION

B.S. in Computer Science — University of Illinois at Chicago

Graduated 2017

CERTIFICATIONS

- Oracle Certified Professional: Java SE Developer
- AWS Certified Developer – Associate
