

David Thompson

Network Engineer

david.thompson@email.com | (555) 662-1190 | Denver, CO | linkedin.com/in/davidthompson-net

SUMMARY

Network Engineer with 8+ years designing, implementing, and securing enterprise-scale network infrastructure across data center, campus, and cloud environments. Strong background in routing/switching, network security, and automation. CCNP-certified with hands-on experience supporting mission-critical, high-availability systems.

CORE SKILLS

Routing & Switching	Cisco IOS/IOS-XE, BGP, OSPF, EIGRP, VLANs, STP, HSRP/VRRP
Security	Cisco ASA/Firepower, Palo Alto firewalls, VPN (IPSec/SSL), Zero Trust, NAC
Cloud Networking	AWS VPC/Transit Gateway, Azure VNet, hybrid cloud connectivity
Automation	Python, Ansible, Cisco DNA Center, Terraform
Monitoring	SolarWinds, PRTG, Wireshark, NetFlow, SNMP
Wireless & DC	Cisco Wireless (WLC), Nexus data center switching, Data Center Interconnect (DCI)

PROFESSIONAL EXPERIENCE

Senior Network Engineer — Meridian Health Systems

May 2020 – Present | Denver, CO

- Own the design and operations of a multi-site enterprise network supporting 40+ locations and 12,000+ endpoints.
- Led migration from legacy MPLS to SD-WAN (Cisco Viptela), improving branch failover time from minutes to seconds and cutting WAN costs by 28%.
- Architected segmented network zones using Palo Alto firewalls and NAC to meet HIPAA compliance requirements.
- Automated routine configuration and compliance audits using Python and Ansible, reducing manual change-management time by 60%.
- Directed incident response for network outages, maintaining 99.98% uptime across critical clinical systems.

Network Engineer II — Cornerstone Financial Group

Jun 2017 – Apr 2020 | Denver, CO

- Managed core and distribution layer switching (Cisco Nexus/Catalyst) for a data center supporting trading applications with strict latency SLAs.
- Deployed and tuned BGP/OSPF routing across dual data centers, improving failover reliability during planned maintenance windows.
- Implemented site-to-site and remote-access VPN solutions for 800+ remote employees during rapid company growth.
- Conducted regular network security audits and closed 95% of identified vulnerabilities within SLA timelines.

Network Administrator — Rocky Mountain Technologies

Jan 2015 – May 2017 | Boulder, CO

- Administered LAN/WAN infrastructure for a 500-employee organization, including switch, router, and firewall configuration.
- Monitored network performance using SolarWinds and resolved recurring latency issues affecting VoIP quality.
- Assisted in the rollout of a campus-wide wireless network covering 6 buildings.

EDUCATION

B.S. in Information Technology — Colorado State University

Graduated 2014

CERTIFICATIONS

- Cisco Certified Network Professional (CCNP Enterprise)
- Palo Alto Networks Certified Network Security Engineer (PCNSE)
- CompTIA Security+
